SPRING ROUNDTABLES

The Environmental Law Section of the State Bar of California offers its 2006 Spring Roundtables, featuring the twelfth annual Roundtable on Contaminated Sites and the Land Use Law and Policy Roundtable. Join us as we return to lovely Monterey, California, the site of the very first Roundtable program in 1994.

This year’s Roundtable on Contaminated Sites will address the status of Brownfield regulatory reform in California, including the CHHSLs, Vapor Guidance, and new proposed regulations establishing DTSC cleanup procedures at non-listed sites; the new federal “all appropriate inquiry” regulations; recent litigation and Superfund Site developments; and recent developments in the market for environmental risk insurance. The Land Use Law and Policy Roundtable will address the unique CEQA issues presented by large projects, water supply planning issues, “entitlements contingent” transactions, and environmental justice issues.

The Roundtables are aimed at experienced attorneys with significant expertise (i.e., five or more years of practice) in their respective areas (i.e., land use law and policy, or contaminated site cleanup, transfer, and redevelopment). Each roundtable program will be limited to approximately 35 attendees, and will be structured entirely as an interactive discussion. Each attendee will be expected to make significant contributions to the roundtable discussions, including at least ten to fifteen minutes of personal commentary on program topics.

A limited number of tuition-only scholarships may be available. Please contact Jayna Blackwell for additional information.

For more information, contact section Meeting & Event Administrator, Jayna Blackwell at (415) 538-2585 or by E-mail at Jayna.Blackwell@calbar.ca.gov
